Lindbergh Non-Combatant, 'Off-the-Record' War Criminal

WASHINGTON.—Rep. Mason (R-Ill.) reported that Charles A. Lindbergh shot down several Japanese planes while testing army fighters as a civilian.

Mason inserted a statement in the Congressional Record which said:

"Ford took Lindbergh on (as a civilian expert) in spite of White House opposition and Lindbergh went to the Southwest Pacific to test war planes under actual combat conditions.

"In demonstration test flights—as a technical civilian adviser to our fighting forces—he actually shot down several enemy planes, all of course off the record because he was a civilian and non-combatant.

"Thus did this 34-year-old civilian flier, far beyond the regular age of army fighter pilots, demonstrate what fighter planes could do under actual combat conditions.

"Not only that, but he demonstrated what American bombers could do. On one test he piloted a bomber loaded with a bomb load three times as heavy as the regular bomb load and took off after a much shorter run than our regular bomber pilots thought safe even with a normal bomb load.

"Lindbergh risked his life time after time in order to demonstrate to our army pilots what could be done with our fighter planes and with our bombers."

Mason suggested that Lindbergh's services during the war warranted the restoration of his rank as colonel in the army air force reserve.

Jackson Announces Lynch Law

NUERNBERG.—Justice Robert H. Jackson presented the United States case against twenty fallen leaders of Germany, accusing them of plotting against America as early as 1940 and perpetrating a gamut of widespread atrocities against Europe.

Jackson conceded in his opening address that there is no judicial precedent for the charter under which the tribunal exists, but he said international law grows, like common law, through decisions reached from time to time "in adapting settled principles to new situations."

Hence, he asserted, "I am not disturbed by the lack of judicial precedent for the inquiry we propose to conduct."

City Schools Superintendent Joins Communist Front

Organization of a San Diego branch of Mobilization for Democracy, statewide anti-Fascist group, was launched at a meeting of more than 250 representatives of local civic and welfare groups in Lincoln school, 835 Twelfth ave.

On motion of Vincent Godfrey, an organization committee including Harry Hunt, Mrs. Mary Fay, Addison Housh, Eddy Orcutt, Godfrey, Mercer Ray and Ray Morkowski, was named to arrange plans for a permanent organization and affiliation with the state group and to prepare for a citywide mass meeting. Orcutt, local writer and radio commentator, was chairman of the meeting.

Speakers included Albee Slade, from the state attorney general's office; Dr. Will C. Crawford, city schools superintendent and Mrs. Mary Fay, school board member. A message from Col. Evans F. Carlson, famed marine raider, was read.

Lindbergh Bagged Jap Fighter Plane

Charles A. Lindbergh sent a Japanese Zero fighter plane down in flames with one short burst from the guns of his Army Lightning during a Far East Air Forces raid on oil installations at Balikpapan, Borneo, on Oct. 10, 1944. This occurrence was kept a secret because Lindbergh was a civilian, a non-combatant and, if captured by the Japs, was subject to treatment as a war criminal. Lindbergh acted as instructor to U. S. forces at the time, showing how to maneuver to advantageous positions in air raids.

Esoteric students have here the typical explanation for the kidnapping and murder of Lindbergh's first born as well as for the tragedy in Henry Ford's loss of his first born. Karma is no respecter of persons, its law works inexorably fair. Because Congress declares war does not make it right. The Law of God prevails and the mills of the Gods grind slowly, they grind exceedingly fine.

Lindbergh and Ford are outstanding examples of transitional characters: Both have publicly been outspoken against the Jewish warmongers, but when it came to actual practice, neither followed the example of the Nazarene who rather walked up Golgatha than serve Jewish warmongers. Ford made billions out of war and Lindbergh went out of his way to become a war criminal. Ford employed Lindbergh.

This paper is not published merely to bring to you the news of events. We are in the business of making you THINK so that you will grow and unfold into a human being. Ford and Lindbergh are not human beings yet but in the transitional stage from Beast to Man. The Man in them spoke out against Jewish warmongers. The Beast in them enrolled their services to carry out the actual war their better Self opposed. This conflict in the present generation of half beast, half man creatures produces the chaos we are in. Our business is to point out that after all, serving the Beast is denial of God. What you sow you reap.

The point is that he who rather dies than kill really overcomes the Beast in himself and is free to re-incarnate and produce heaven on earth. The present populace is learning the lesson of futility of violence the hard way.

Recently we called attention to the history of the German people who actually crucified Jesus at the behest of the Jews while hired as legionnaires of Rome under Pilate. We also pointed out that the slaughter of animals kills the human soul of mercy and sympathy with living creatures, finally brutalizes people who will kill their own kind, which is a form of cannibalism, since it's done to "make a living". Booze also helps deaden the soul and we see the results of it in Germany's wars, in Buchenwald and Dachau.

Some German readers of our paper took offense at our pointing to them as an object lesson of the futility of violence and booze-happiness.

If the truth offends them they had better mend their ways.

Dear Sir:

You may want information on a diabolical piece of government tyranny that took place here yesterday at the Jew-nighted Skates Port of Embarkation.

Some twelve to fifteen hundred Japanese were deported under close guard. While awaiting the most minute search to get all their money and jewelry except their watches and sixty dollars each was allowed to retain, they were herded in a heavy rain while they could have been sheltered inside the dock.

Many had to give up their diamonds and several thousand dollars. They were also allowed to retain earnings in concentration camps.

Very truly yours,—A PORT EMPLOYEE, Seattle, Washington.

In Sacramento Smith spoke in the Municipal Auditorium. The Communists and certain left wing Jews organized a picket line which came into the building and tried to break up the meeting. They booed during the Lord's Prayer, they hissed the name of Christ, and they heckled while the audience was pledging allegiance to the flag. This incensed the audience so that they immediately organized a squad of volunteer sergeants at arms, who maintained order during the remainder of a successful meeting.

America's War Criminals

The crux of the Pearl Harbor mystery is whether there was a conspiracy among Mr. Roosevelt, his cabinet associates, and certain highly placed men in the war and navy departments to invite a Japanese attack, which would force the nation into war, and to permit that attack to occur without warning to the responsible commanders in Hawaii, even after the cracking of the Japanese code had clearly disclosed its imminence to such an extent that a shrewd naval officer could even prophesy the time and place.

It is fully admitted that Washington, thru possession of decoded Jap messages, was aware that relations between the United States and Japan were to be ruptured 16½ hours before the hour set for the break, but that this information was withheld from naval and military leaders in Washington, who were charged with responsibility for putting the commanders in Hawaii on guard. The fumbling that went on in the war department after receipt of such vital intelligence cannot be rationally explained on any other ground than that it was done deliberately and for the purpose of obtaining the casus belli so urgently desired.

What is the code message they want to hide? Did it say the attack was to be made on Pearl Harbor? —Chicago Tribune.

N. Y. Reds Blacklist The Newsstand at 200 E. 86th St.

If you are sufficiently interested, you may go to 137 E. 57th Street, New York City and ask the "Friends of Democracy, Inc." for an issue of the Propaganda Battlefront, a semi-monthly news summary of up-to-the-minute information about activities in the subversive field, as is claimed at the masthead of that sheet.

They would not sell you a copy of same, but instead you must subscribe for this sheet for an entire year at the rate of \$3.00—otherwise you cannot have a copy.

But before receiving a receipt for your subscription, you must be prepared to submit to a questioning which comes near the third degree. It is like going through a grilling by the FBI (Ogpu style). Some friends of mine went to that 57th St. address and underwent that experience. Questions "How do you know about this paper?" and "Who sent you here?" and "Why are you interested in this paper?" were the easy ones to answer.

On the fourth page of the October 15th issue the following persons were smeared under the heading "NEWS FLASHES":

Edward A. Rumely, Joseph Lee, Upton Close, Westbrook Pegler, George W. Armstrong, Senator Langer, Congressman Rankin, Joseph P. Kamp, Albert Dilling, John T. Flynn, Frederick Kister, Maximilian St. George, Rev. Edward J. Brophy, Arthur W. Friede, Eugene Flitcraft, Henry Klein and my newspaper store at 200 E. 86th, New York City, received the following write-up:

"THE SHOP on East 86th Street, New York City, which sells C. Leon de Aryan's BROOM, is branching out. Now it sells Yellow pencils inscribed 'Jew Money and Jew Deal and New Deal means WAR'. It also distributes the DISPATCH by Homer Maertz and T. W. Hughes' notorious book, Forty Years of Roosevelt."

To show you, how reliable the men behind the Propaganda Battlefront are, I wish to state that whenever anybody comes to my store and buys a copy of THE BROOM, he or she is not grilled as to where he or she comes from and what he or she wants to do with it. I sell all papers openly to anybody who asks for it because I believe in a Free Press. I sell the Daily Worker, the Aufbau, the New York Herald Tribune, in short, all papers, irrespective of tendency, because I do not discriminate against any paper. Other newsstands in New York City should follow my example!

I as well, as the other men named before and smeared in the Propaganda Battlefront fight in the open, in American style, and I am convinced that they fight for a righteous cause, i. e.

FREE SPEECH, FREE PRESS, FREE ASSEMBLY and EQUAL JUSTICE UNDER THE LAW.

The people behind the Propaganda Battlefront, the so-called "Friends of Democracy, Inc." almost knock themselves out by talking so much about "Democracy", but they do not practice it. These people should not smear the men

We all admire a man who says what he thinks—as long as he says it about other people.

Remember Pearl Harbor !

To the extent that the people of these United States are faithless to their task of expressing Individualism, represented by the Christ who obeys God only, they are worshipping the \$ and are ruled by its creator: The merciless Jew, typical of Henry Morgenthau.

The trouble with our American "melting pot" is that all the scum rises to the top.

named before, as they are only criticizing what they conscientiously believe to be wrong.

The men behind Propaganda Battlefront must have a lot of Ogpu spies. They do not report the truth, or else their reports are made over at the office of the "Friends of Democracy, Inc."

They seem to be a lot of fellow travelers painted red, and anybody who does not like the red color is smeared by these "Friends of Democracy" as a "Fascist".

These red Propaganda Battlefronters apparently think that everybody in these United States must be classified in the following three categories:

- 1) Their friends who, like the "Friends of Democracy, Inc." are red;
- 2) Those who do not like the way of thinking and acting of the people who believe in the doctrines of the men behind the Propaganda Battlefront—and such opponents are called by them "Fascists" and are labelled "subversive";
- 3) The balance of the entire population of the United States are considered as plain political dumbbells by these Propaganda Battlefronters.

If the "Friends of Democracy" were not such a subversive crowd, they would come out in the open instead of doing their dirty work "Under Cover", which is the name of the smear book they published and which fits to a dot their way of propagandizing.

I invite those cowards to dare to sell their hate sheet on my newspaper stand! But they won't dare to—they prefer to peddle their poison like dopesters.

What American Efficiency Did to Europe

An Open Letter to the President

Mr. President:

Publish the report on conditions in Germany turned in to you by wartime censor Byron Price.

Let the public compare the conditions in Germany as well as in the liberated countries of Europe after six months of Allied efficiency.

With the conditions under five years of Nazi slave? rule.

From the Atlantic Charter and the four Freedoms to the Potsdam Declaration—the result of the Morgenthau-Vansittart hell on earth, step by step, to man's undoing.

And then Mr. President, will you have the courage to take up Byron Price's suggestion to wash our hands off the "ghastly mess of starvation, with the attendant epidemics and disorders"? which proposal to steer clear of the perpetual mess of the dying continent of Europe, is found so sound and excellent by Mr. O'Donnell of the News.

First we pummel a man from all sides and then we leave him, almost dead, to the vultures, without any means of defending himself.

What honor, what decency, what Christianity, what humaneness.

Let England with her "Balance of Power", let America with her self-imposed mission of "Freedom and Democracy for all" leave Europe alone and the world will be surprised with the "dying continent".

The perpetual interference of the so-called democratic countries is the only cause, not only of European Unrest and Wars but also of the World at large. It has become all too evident.

So let the people of the United States have the report of Byron Price.

Very truly, ELSE MOELLER

Dear Mr. de Aryan:

We receive much information from your outspoken paper and don't want to miss any issues, so after Dec. 5th please send paper to —

In case you haven't seen "Woman's Voice" am enclosing a issue you may find of interest.

We like the way you hit the American and world's troubles on the head and explain the causes of much of the unrest in this tired old world.

Yours for a Constitutional America,

—Mrs. L. E.

Forum of a Free Press

Dear Mr. de Aryan:

You have recently given space to some letters on German-American affairs, which never should have been printed, as they are either plain nonsense or of such controversial nature that they pull down the sale. Please do not publish such things without having sent me the letters for approval, as I can judge them better than you. With kindest regards

Very sincerely yours,

A GERMAN-AMERICAN FRIEND

My Dear Friend:

You'd be surprised how history repeats itself.

Seven, or so, years ago I received an identical proposal from Nate Baranov, one of the leading spirits of organized Jewry in San Diego, who deplored certain articles appearing in THE BROOM dealing with Anglo-Jewish affairs. He, too, honestly and most sincerely, was concerned about the commercial aspect of circulation of the paper and its financial return to me. He invited me "in the best interest of the paper", from the shekels point of view, NOT to PUBLISH such things without first submitting them for his persual since he, as a leading Jew, was better able to judge such things than I.

Of course, this is a FREE American weekly, not a Jewish nor German propaganda organ for the purpose of making sales, deriving revenue from advertising, etc. The business department does NOT run the editorial end of the paper.

Was Nate surprised to discover that I was willing to take on the whole of organized Jewry and tell them where they get off when they attempt to bribe a free editor by the lure of "business" to pervert his judgment and NOT publish what would hurt "business". The Jews have blacklisted, boycotted, framed and jailed me and still I persist in telling them to go plumb to hell while THE BROOM survives in the best tradition of a free American press according to the ability of its editor to perceive and present the unwanted truth.

Mind you, at the time Nate actually did consider himself my friend; from his viewpoint of business ueber alles he was advising me profitably. But then, where would THE BROOM be? WHERE WOULD FREE PRESS BE?

Your judgment, my friend, may be twice as good as mine as to what attracts customers and promotes sales, and I don't say it facetiously, but I am not in the business of making sales, and attracting customers who DON'T APPRECIATE A FREE PRESS WHEN THEY HAVE ONE.

And THIS is the secret why THE BROOM has survived during the hardest period of the war and of Jewish persecution, while steadfastly preaching the folly and crime of war as an evil that never brings peace but more misery, more slavery and bigger and worse wars in its trail.

Because I dare publish "plain nonsense" or articles of such controversial nature that they will pull down sales that this paper is unique in the annals of American journalism. That is why I DARED ESPOUSE THE CAUSE OF PERSECUTED GERMANS because I am foolhardy enough to ignore financial consequences. Do you, for one moment imagine that I would give up my editorship in order to promote larger sales among German-Americans? How long would THE BROOM then represent the unwanted truth?

If we were to allow the galleries to decide what is popular instead of using our own judgment of what is truth, the damaging truth, the incriminating truth, the truth that hurts, then our paper would become a propaganda sheet for a certain faction that supplied the funds. But in order to avoid that very pitfall, we deliberately bring out the unwanted truth and let our "best friends" view themselves in its mirror. The result speaks for itself.

This is the sword that Jesus spoke of when He said that He did not come into the world to bring peace and unity but to divide even the family and set daughter against mother.

The BROOM will continue to be edited by this editor as long as we live, and are free to discharge that duty. Whenever money becomes the deciding factor then FREE PRESS dies. I undertook to demonstrate that TRUTH

pays for its own keep and have proven it in 15 years of fearless, reckless, dare-devil fashion, publishing "nonsense" or matters too controversial for sales promotion, but . . . when the Germans needed a friend to speak up in an open forum . . . here was THE BROOM.

And what goes for the Germans goes for anyone else; at one time when the Jews needed a friend against Silvershirt persecution we stood up for the Jews. Our business is to maintain a FREE FORUM for the underdog by presenting the unwanted truth.

David knocked Goliath out with one single pebble. We don't need a million circulation to hit the bulls-eye. One well aimed shot at the decisive instant and we have turned the tide or started something. The history of THE BROOM is the best evidence that a free press survives only as long as it is free to respond to the judgment of one who loves truth more than he loves his life.

Thanks for your kind interest, but my answer is NO.

With best regards, sincerely,
 C. LEON de ARYAN

What About the German People?—What Will History Say?—A Great and Good People

By WASHINGTON ADAMS

WASHINGTON, December 2.—From an evolution standpoint, science is certain that the yellow and black peoples, on the whole, are from 10,000 to a million years behind the white or "Caucasian" race.

This does not mean that all of the inferior races are bad and stupid, or that all of the superior race is good and clever. It refers to their average "IQ" and development of face and head.

Thomas Huxley, one of the greatest of British scientists, said, "Between the highest white man and the lowest Negro there is a stretch of evolution greater than between that Negro and a blade of grass."

Notice that Dr. Huxley implied that all of each race were not alike, and that there were some superior Negroes and low-grade whites.

To put ALL of any race down as either grand or mean is an evidence of prejudice and illogical reasoning. Burke said, "You can not draw up an indictment against a whole people." Science approves this statement 100 per cent. Jews like Louis Nizer, Henry Morgenthau and Bernard Baruch have insulted the thirty million loyal Americans of German blood by picturing the entire German people as being cruel, degraded and unfit for self-government; that they have always been Europe's disturbers of the peace.

No greater lies were ever circulated. Those who spew such hates, based upon complete falsehoods, are unworthy of American citizenship. Among these "German-baiters" is Rex Stout, the noted "hate-writer" and paranoiac Germanophobe, who wrote to the N. Y. Post, protesting against the humanitarian sentiments of its brilliant columnist, Dorothy Thompson, and wanted her barred from the paper, because she asked for Christian treatment of Germany.

Science also believes that the great white race is on its way out, via birth reduction, wars, and the greater fertility of the dark races. India's population increase during the past ten years has been equal to the total population of the United States in 1880, that is, 50 MILLIONS. The Mongolians are even more prolific. And race mixture will mean racial death for the American.

If one thousand years hence some Japanese historian should write of the dead white races, what will he say of the GERMAN? Will he quote?—

ALL BRITISH HISTORIANS prior to 1914, have always pictured the German people as being a peaceful, industrious, cleanly, home and family-loving, law-abiding, scholarly, inventive, music-loving and brave in warfare when called up by their rulers to defend their country.

Both British and American historians referred to FRANCE as "the most WARLIKE nation in Europe." It was once at war with England for 116 years, and not during the periods of William the Conqueror and Napoleon.

BUCKLE, the great English historian of the 1840's who said in his "History of Civilization in England": "The hatred which the English have for the French (because of past wars) is an evidence of narrow-mindedness and misinformation, which will disappear when the two peoples learn more of each other." He pointed out that the English were first cousins to both the French and the Germans.

The people of Germany were no more responsible for the atrocities of Hitler than the Russian people were for those of Ivan the Terrible. Each people were governed by despots. Not all Americans were responsible for the Roosevelt despotism. Many Rooseveltians never knew what a camarilla he had.

Nora Waln, a Philadelphia Quaker married to a Danish engineer, in her book, "Reaching for the Stars," said: "My husband and I have lived in the leading nations of the world.

We have never lived among a people who were so hospitable as, or who would go further out of their way to do a favor for a stranger than the German people." That was in 1938-39, when the Nazis banned her book.

The Jewish Digest in New York had an article in its Feb., 1941, issue, entitled, "The German People Befriend the Jews." The average German, it said, did not know of Hitler's persecutions.

Jew to "Assist" Jap War Trials

WASHINGTON,—Harold Nathan, for four years head of the San Diego F. B. I. office has been assigned to the U. S. commission in Japan to assist in trial of war criminals there, it was reported here. He will serve under Joseph Keenan, assistant U. S. attorney general.

Nathan retired from F. B. I. last Friday in Richmond, Va., after 28 years service with the organization. He served in San Diego from March, 1941, to November, 1944.

While in San Diego, Harold Nathan attempted twice to frame and railroad the editor of THE BROOM on a charge of sedition before the Federal Grand Jury in Los Angeles. The jury refused to indict. Nathan carried out "orders" of the B'nai B'rith. Such Jews are misrepresenting America and are giving it a black eye in the lynch law trials of Europe, Asia and Washington, D. C.

Jas. Roosevelt to Run Campaign of Carlson

LOS ANGELES,—James Roosevelt may manage the campaign of his former superior officer, Colonel Evans Carlson of the Marines, for United States Senator.

Intertwined with that is the story that Mrs. Eleanor Roosevelt is maintaining a potent hold on a large faction of Democratic politicians and that the widow of the late President is the guiding spirit behind Jimmy's activities as the "West Coast branch" of the Roosevelt dynasty, with Franklin Jr. being developed as his counter part in New York.

One of Jimmy's "activities" is the Beverly-Westwood Citizens' Committee formerly the Beverly-Westwood Democratic Committee.

The committee recently sent President Truman a letter taking him to task for "departure from basic policies (for Big Three unity) which had guided this nation during war."

It complained about our alleged intervention in other nations' internal affairs. Particularly it denounced Chiang Kai-shek and shed tears for the Chinese Communists, whose State Department sympathizers were upbraided when Ambassador Hurley resigned. Not a word was said about Russia's unilateral actions.

All this is interesting because Carlson, who spent years in China, thinks the Chinese Communists have "integrity." In Carlson, left-wingers see hope.

Lynch Law 'War Trials' Frighten Army Officers

MADRID,—A growing feeling of uneasiness and opposition is reported from the armies of more than one country against the endeavor by statesmen to establish a precedent at Nuernberg that army officers of high and low rank are responsible to governments other than their own for carrying out the orders of their own government.

It is pointed out, it is said, the disastrous effect this policy is bound to have upon the sworn allegiance and obedience of officers to their government and to the military discipline.

Military circles are alleged to hold that the Nuernberg court and trial has no legality whatsoever to establish such a precedent and if upheld will create chaotic conditions in armies in future wars.

Jews And Negroes

By Ellis O. Jones

The other day I was asked by a young matron and "Liberal" fanatic who had been influenced by lies published about me in the smear press, whether I believed in "equal rights for Jews and Negroes".

I replied that I did and that I also believed in "equal rights for Gentiles and Whites." Somehow this didn't seem to please her.

But I do not want here to discuss those "equal rights" which are supposed to be guaranteed to all by the Constitution as amended. I want to discuss this recent development by the Communists, this purely specious and superficial development of cluttering up the channels of thought by linking Jew and Negroes together to form a special category, also speciously and hypocritically referred to as "minorities".

It's a dialectical trick. Nothing more. It is an effort of the Communist, chiefly Jews, to establish by an association of ideas the notion that Jews are being unfairly dealt with in a manner called "persecution" comparable to unfair treatment of Negroes which they choose to call "persecution".

The simple truth is that there has been no "persecution" of either group as a matter of law in this country. There are restrictions of

civil rights against Negroes in some states and anti-Communists are doing more to remove these restrictions than are the Communists, but they do not come under the head of "persecution".

But granting that there are some restrictions against the Negroes, that is not true of the Jews and therefore, in that respect they should not be classed together.

Following the same line, we may recall that the ancestors of the Negroes came involuntarily, as slaves. One could not airily say to them: "If you don't like it here, why don't you go back where you came from?" The shackles were too prominently in evidence for that. The Jews, on the other hand, came voluntarily and not for the most part, as pioneers, but as movers-in upon already well-advanced communities where pickings were relatively easy. This, for what it is worth, is a marked differentiation between the two groups.

Another and perhaps a more important difference between the Negro "question" and the Jewish "question" is that there is no religious factor in the former, whereas in the latter religion is prominently, deliberately and inextricably mixed with "race" so as to create hopeless confusion. From a religious standpoint the Jews are a minority and receive special privileges accorded by law and custom to religious groups, while the Negroes as a class belong to the vast majority whether believers or non-believers in the Christian religion. In other words there is no Negro special religion.

Another difference is that the Negro question is local, not international. There are no international Negro financiers, no international Negro cartels. Nobody ever thought of going to war to save some Negroes. Nobody has suggested that the Negroes were in any way responsible for our going into this last terrible holocaust.

Another important difference is that the Negroes are not prominent in politics, finance or the professions whereas the opposite is true of the Jews. This prominence, how it was acquired, whether it is merited and whether the power arising therefrom is rightly used in the interest of the general welfare rather than of their special racial and religious group—all this forms the nub of the Jewish question. No such considerations enter into the discussion of the Negro question.

All this grouping of Jews and Negroes is fostered by the Jews for their own benefit, not because they have any special love for Negroes. The average Jew has the same attitude toward the Negro as toward a white Gentile, unless we admit that he considers the average Negro an easier prey in sharp trading. The average American Negro has about the same attitude toward the Jew as does the average white Gentile. The Negro press and Negro leaders resent being classed with Jewes on the general ground that through such classification they get all the disadvantages thereof with no corresponding advantage to offset it. They would rather stand on their own feet, rather keep on getting ahead by the same industrious methods that brought them notable advancement before this new verbal trick of the Communists was invented.

No, it isn't equal rights that a particular organized coterie of Jews want, but special privileges as suggested by Lewis Browne in Look Magazine, Dec. 14. He advocated a law protecting Jews from criticism. Bills to that effect have been introduced in Congress by Dickstein and others.

That would amount to a curtailment of the rights of free speech as guaranteed by the Constitution. No other group has asked for or achieved such an exemption. The Jews are now protected by the libel laws as much as anyone else. No special law is needed.

This country is filled with minorities—made up of minorities—Irish, Germans, Poles, Scandinavians, Welsh etc. Why should a couple of totally unrelated minorities beat all the tom-toms for special attention? The answer is not far to seek.

Dear Mr. de Aryan:

Please find check of 5 dollars for a year's subscription for myself. I thank God in my heart for a brave and daring soul like you are. With sincere interest I read your article about your asking for your soulmate. If I may express my opinion I would like to say that you might not find that beautiful soulmate of yours on this earth, as you are far above the average person and live with your consciousness on a higher plane. But I dare say you will surely meet your soulmate on the other plane, awaiting you. Now isn't that a hope!

God bless you and may He keep you in good health and happiness for a long time to come.

CHAPTER X.

Engaged in a movement favoring the recognition of the rights of the masses, Yessu was very frequently confounded with leaders of political factions who would use His name in vain to hide their own weakness. Such methods naturally cast reflections upon the Master's work, of which the Pharisees were known to take advantage and use for purposes most effective to gain their own ends. Uprisings and riots of a political or religious nature were attributed directly to the work of the Nazarite, and matters became more and more complicated, so much so that even those who at first were the most ardent followers of the Master became fearful and that it best to keep in the background instead of directly identifying themselves with the movement.

Years went on and with them the work progressed among all classes, even those who were His most bitter enemies became numbered with the best of His friends, serving the cause zealously.

Master Yessu followed the plan current among all Oriental teachers, of speaking in parables and explaining the most difficult questions of the day by illustration familiar to the public mind. But He had a hard class of people to deal with, a people who had absorbed all the suggestions of their ancestral ties, together with prenatal influences, and they were steeped in superstition and vice to such a degree that greed, avarice and mistrust had become their characteristics, a feature that left but little to hope for except long suffering and degradation.

Still, in spite of the efforts made against the movement, the Master labored faithfully for the liberation of His people, altho it was known to Him that other nations would have welcomed Him with open arms and worshiped Him, yea, even deified Him. Yet He knew that if there was a people on the face of the earth who needed reform and instruction in the way of life, it was His people. "The sick need the physician," was His consolation, and altho "a prophet is without honor in his own country," He tenaciously held that "the Truth shall make you free."

While unpretentious and very plain, simple in His habits as well as in speech, Yessu's admirers were determined to see Him recognized by all the people as the greatest of all prophets, and as the leader of the nation. Among His followers, as well as disciples, He numbered the most ardent worshipers and enthusiasts, of which Yudas Iscariot was the foremost, and Simon Petrus a co-ordinate.

The enthusiasm of some of His disciples and followers had only too frequently placed Yessu in a rather questionable light, as well as getting Him into predicaments from which it required tact to extricate Himself as well as those implicated.

For nearly nine years Master Yessu preached the gospel of liberty, healing the sick, counseling the poor, helping the distressed, raising the fallen and working towards the emancipation of the lower class to a position of honor. Still, it was hard to root out of the minds of the masses the feeling of class distinction instilled into their minds by reformers claiming and promising to them liberty.

The success with which Master Yessu met in His mission encouraged others to follow His example, not to help the masses, but for self-glorification. These many reform movements inaugurated upon all sides were rather in opposition to the work of the Master and a detriment to His noble intentions. These movements were secretly encouraged by the priests of the church to discredit the Master and put a stigma upon His work. Hasty and unwise steps on the part of His overenthusiastic disciples and

followers oftentimes culminated in a clash with the followers of other factions. All such incidents were tabulated by the priests and elaborated upon to serve their questionable purposes.

The priesthood was determined to rid itself of Master Yessu at any price, for He seemed a menace to their policy. For some time they had conferred with the local officials, but having failed to bargain with them, concluded to send their envoys to Rome.

With costly presents and trumped-up evidence of alleged guilt against the Nazarite, the Sanhedrin hoped to gain a helping hand from the officials in Rome, effecting the arrest and trial of Master Yessu, whom they wanted tried for treason against the government, thus misleading the minds of the people.

While His enemies were devising plans and taking steps toward His destruction, Master Yessu went on with His work, keeping Himself well informed as to all the movements made by the Sanhedrin, the plans of which He would destroy whenever advisable.

Father Eliye-Eli would also keep Master Yessu well informed as to all the movements of the Sanhedrin, and with the aid of Nicodemus and Yusef of Arimathea, who were members of the Sanhedrin, there was nothing that could escape the knowledge of Yessu. Altho more cautious than ever, and more and more reticent about His ways and in His manners, He continued laboring among the people until He felt that His attention would better be given to His immediate disciples and followers, upon whom He would have to depend for the continuation of the work begun.

Judging from the steps taken by the restless priesthood and their hirelings, Master Yessu felt that His person was no longer safe and that means of protection would better be resorted to. Attacks upon His life had grown more frequent, and some of them so boldly that it could no longer be doubted that the dark powers behind the throne of Caiaphas were at work seeking His destruction. With a cunningness characterized of a priest-craft, the enemies manipulated the simple movement into channels of a political nature that doubts as to the sincerity of the Master might possess the hearts of the faithful. Dissension and strife would thus be created which would lead to encounters and justify interference on the part of the government, the Sanhedrin then aiding in the investigation would assure for itself prestige and favor in the eyes of Rome. For what did the priest-caste care as to what a man may do in furthering the betterment of another when positions and possessions of a parasitic class were at stake. Void of conscience and a mind warped as to right or wrong the priest-caste had its own ends in view.

The gullibility of the masses was an established fact, and public sentiment depending upon suggestion from a single man higher up, or publicity by hirelings, made every move inaugurated by church or state an absolute success, so much so that interference by any power not in harmony with the object of the governing class meant annihilation of the obstacle or death to the opposing person. The priests had learned from experience that every step tending toward sensationalism and undue excitement raised their kind in the estimation of plebeian and artisan alike. (To Be Continued)

That Bloody Jewish Yahveh

Dear Sir:

Mr. F. C. Hughes quotes Yahveh the tribal god called God in the old Bible on meat eating. This is the same deity who commanded the Israelites to burn meat on altars so I presume he, Yahveh, liked meat also. Then he told the Israelites to take the cattle and virgins of their enemies for themselves, but to kill all the men and boys! See Book of Numbers. He also told them if an animal died, (not being kosher-killed, I presume) to sell it to strangers for the strangers to eat! Deut. 14-21.

But according to this same old book, the students put on a vegetarian diet. Daniel 1-2-3 outstripped those who ate the king's meat. A butcher is not accepted as a juror on criminal cases in the U. S. Why? Yahveh is a poor guy to prove right and wrong by!

There must be a center and source of life in the universe, which rules by natural law so that re-action follows action! This is Karma, the balance of which produces results man calls rewards or punishment. But it is always easier and more profitable to work with the law than against it.

There are many good reasons for avoiding the eating of corpses, but Yahveh is not a good authority! nor do I believe he is the God who rules "supreme" but there is a law of right thru which the real God rules!

How Mexico Treats Its War Prisoners

Dear Sir:

Recently I came across a copy of THE BROOM at a friend's home, where I also heard about the plight some resident German Aliens, who had had the misfortune to be interned in this country, were in after the conflict over there has been terminated for some time. I could not but recall the action of the Mexican Government while I visited that country from April to June.

I thought it might interest you to know that the Civilian Prisoners (they of course, had no other) in Mexico were released almost immediately after E-Day and every prisoner was handed One Thousand Mexican Pesos, (about \$200.00), which must have been quite a wind-fall for most of them, helping them to a new start in life until they find employment again. What is more, it must have restored a little hope and trust in humanity which no doubt they lost, since their only guilt had mostly been that they were born in Germany about which they had had no choice in the first place.

It seems this is quite in contrast to the way the German Civilian Prisoners of War have been and are treated by our Government, particularly when they ship them over to be devoured by the French and Russian wolves, about whose bestiality one hears plenty these days. I hope that I will not be here when the world will be treated to the spectacle of revelations about Russian concentration camps, which I have no doubt will exceed in horror anything our imagination can possibly picture.

Hoping the above report is of interest, I am,

Yours very truly, — A. O.

X-Ray 'Shave' Destroys Beard

WASHINGTON.—The permanent shave is here, or so says Miss Violet Arnold of Detroit, who invented it. Her boy friend was the inspiration, with his wiskery chin.

Now he has no whiskers, thanks to U. S. Patent 2,389,403, the X-Ray razor.

Miss Arnold's shave consists of two X-ray treatments of five to 10 minutes each, with the rays going thru an aluminum plate before they hit the whiskers. That makes them curl up. Then she attacks the wilted whiskers nine more times in five weeks with the rays going thru aluminum and a bottle of water, too. Eureka!

The face is soft, smooth and pink, like a Guernsey's nose. Clean shaven by atomic power forever more, but the question is what happened to the tissue that withered the hair-roots? Will the skin and flesh produce a cancer as X-ray burns do?

SIMPLY STAGGERING—Psychologists estimate that there are more than 2,000,000 heavy drinkers in the United States. Simply staggering!—San Diego Union.

Children's Home Society Of California

California's unwanted babies who begin life ill, underweight or requiring special care will find a new \$120,000 nursery and clinic awaiting them after December 10th when the Children's Home Society of California opens in Los Angeles one of the most modern buildings of its kind.

The non-profit society, one of the state's two adoption agencies, last year placed more children in permanent homes than any similar organization throughout the nation, President Leroy Goodrich revealed in announcing the opening of the new facility.

"In addition to the nursery for 30 newly-born infants, there will be a clinic for examination of children of all ages and a wing for training classes and other staff activities," Goodrich said. "Generous private contributions have made the seriously-needed structure possible and it is a major step forward in our effort to meet unprecedented pressure created by the state's mushrooming population. Even considering that the Society has placed 17,000 children in permanent homes since its organization 54 years ago, we still could service twice as

Truman Will Not Stop War With Russia

The hopes of President Truman are misplaced when he expects the United Nations Organization for "world peace" to stop the British-Russian war of Imperialism which is being financed already by the U. S. taxpayers. This war is already on in Europe and Asia and China. The same elements who threw this nation on the side of England in the 2 preceeding wars are guiding the foreign policy today and again we shall find ourselves at war with Russia as we did with Japan. A "surprise bombing" of our territory,—“we planned it that way”, say the boys in Paris, London, N. Y. and D. C.—will take place and there you'll be.

Prof. Richard Madden, of San Diego State College, gave the only remedy for peace: "Education is the only power which can possess the equivalence of power of atomic fission." In other words the power of THOUGHT alone can control the beast in men who misuse the universal forces of Nature to destroy and terrorize dissenters. But as long as our schools and churches are subservient to the Beast and deny the Christ, war is the outcome as certain as throwing burning matches into a tinderbox will result in conflagration inspite of a United Nations fire department that is controlled by the arsonists.

many children if we had the funds and facilities. At present, we have about six applications for every child available for adoption."

Adoption is not a hit-or-miss proposition, Goodrich disclosed. First, parents wishing to release a child for adoption are consulted at length to make sure that family ties are not unnecessarily broken. Then follows a study of the child and preparation for placement, including medical, clinical and psychological care.

Meanwhile applicants who seek a child are carefully investigated as to personality, affection for and ability to

get along with children, judgment, tolerance and patience, home surroundings, educational background and financial status. Infants are cared for in the nursery and older children are placed in one of the society's homes in Los Angeles, San Diego, and Oakland until the child is ready for placement in a home which best fits its individual personality. Even after placing a child in a foster home, the society carefully inspects his progress for a year before final legal adoption is permitted.

Last year, 540 adoptions effected by the organization insured that many otherwise homeless children of a happy, normal family life.

Sutherland Dam Should Be Completed Before More Bonds Are Issued

(From the San Diego HERALD)

Early in 1920 the City of San Diego entered into a contract with the San Diego County Water Company to purchase approximately 3 million gallons of water per day to be drawn from the Hodges reservoir and delivered to the city's Lookout Mesa reservoir near Del Mar at 10 cents per thousand gallons.

This 3 M.G.D. had priority to all other water from that system. The San Diego County Water Company had other outstanding contracts against this system aggregating a maximum of 9 M.G.D.

About 1925 the City of San Diego entered into a contract with the San Diego County Water Company to acquire the entire Hodges system, which, in reality, meant the undeveloped waters of this water shed, amounting to approximately 14 M.G.D. The total purchase price was to be \$3,750,000.00. The city made a down payment of \$500,000.00. It was estimated the amount of money the city was paying per day for this 3 million gallons

Calls Hitler God's Instrument

FUEHRER'S BUST BRINGS \$2000 AT AUCTION

LONDON.—London newspapers headlined reports that an organization known as the Legion of Christian Reformers, said to regard Adolf Hitler as "a divine instrument," had been formed in England.

The news stories followed an auction of a huge granite bust of Hitler and Nazi flags from the former German Embassy in London, which was marked by spirited bidding.

ARMY CAPTAIN OUTBIDS GIRL WHO LIKED HIM, TOO

A British Army captain, whose admiration for Adolf Hitler caused him to be jailed from 1940 to 1943, bought a granite bust of der Fuehrer and made an impromptu speech pointing out that "those who mocked and scorned" Jesus have long been forgotten.

Captain R. Gordon-Canning paid \$2,000 for the bust at an auction of belongings of the former German Embassy. He outbid a Blackpool show-woman, who wanted to display it alongside Jacob Epstein's "Lucifer," and an unidentified young woman who said "Hitler was a very great man," and compared him with Napoleon.

Offers on the bust started jocularly at "two bob" (40 cents). Capt. R. Gordon-Canning, former member of the British Union of Fascists, immediately snapped "ten pounds" (\$40) and, after counter-bidding, purchased the granite head for 500 pounds (\$2,000).

After his purchase, Canning retired to the back of the hall and declared: "Nearly 2,000 years ago Jesus was mocked, scorned and crucified. Today He is a living force in the hearts and minds of millions, and those who mocked and scorned and tried Him today are of no account."

Canning, formerly a member of the English-German organization "The Link", was detained for three years under regulation 18-B of the defense of the realm act.

Gordon-Canning told reporters that bust might "go back to Germany in about twenty-five years' time."

'OBJECT OF VENERATION'

Also present at the sales was a man identifying himself as J. L. Battersby, general secretary of the Legion of Christian Reformers, with headquarters in Kingdon House, a grey-stone mansion on a sixteen-acre Sussex estate donated by a friend. Battersby did not enter the bidding, the newspaper said, but told one man that the bust was to go to Kingdon House and remain there as "an object of veneration." Battersby said, however, that Gordon-Canning was not a member of the legion.

"We in the legion regard Hitler as a divine instrument to break the power of the mammon system," Battersby said. "You cannot serve God and mammon."

SENT TO JUDGE WORLD

He added that the legion was absolutely non-political and said "Hitler was most definitely sent by God to judge the world."

Another man who gave his name as G. T. R. Merriman purchased two Nazi flags and told the press: "Hitler was preparing the work of judgment. I hope to God it hurries up."

The newspaper said that among others attending the sale were a number of former members of the British Fascist movement.

As Gordon-Canning returned to the salesroom to pick up the bust, he told reporters he had decided to have it stored with his furniture.

Merriman was offered 130 pounds (\$520) for one of his flags as he was loading them in a taxi, but said: "I would not take a million."

under contract, plus other revenues from this system, would pay off the indebtedness over a period of years. This agreement was proving satisfactory.

Shortly after the contract to purchase the system the city having difficulty in developing water elsewhere voted bonds for the purpose of building Sutherland dam, acquiring certain lands and construction of a conduit to San Vincente water shed. Everybody is familiar with the outcome at Sutherland dam. We have today a half completed dam. It was supposed that the work was stopped for the reason that funds were exhausted. I ask this question—is that correct, or is it not correct?

It is now stated that this money can be used elsewhere for dam construction and can be used to assist in securing W. P. A. allotment from the United States government. If this can be done why has this money been allowed to remain idle in the city treasury for the past number of years? Why was not application made to the government for funds to complete Sutherland dam? Why does not the engineer give us an estimate of the cost to complete Sutherland dam, and the conduit to San Vincente; also give us an estimate of the cost of the entire San Vincente project—not just the foundation.

I have been informed that Sutherland dam and the conduit can be completed for a million and a half dollars and that an excess of 8 M. G. D. net safe yield can be produced by this construction. Let the city also furnish an estimate of the amount of hydro-electric energy that can be developed by the construction of Sutherland dam and the Morena Barrett unit of our system when completed to their maximum. I have been informed that sufficient electric energy can be developed from these sources to illuminate all of our streets. Worth looking into. It might be well to look into the progress that Escondido has made along those lines.

Since the city's acquisition of the Hodges-Sutherland system it seems to have been the policy of numerous city officials to show not the best way this system can be developed, but to show how it best cannot be developed by raising every riparian, legal and engineering question possible to think of.

There are times when one wonders if some of the city officials work for the city or someone else. I do not believe the public and taxpayers are in any mood to vote any more bonds and no doubt government grants will soon be discontinued.

It is frequently said that San Diego has 10,000 embryo engineers—if so, thank the Lord

Government Cartels Good, Attlee Says

CITES RUSSIAN RECORD IN EXPORT TRADE

OTTAWA, Ont.—It is possible for government corporations successfully to engage in export trade, Prime Minister Attlee of Britain said here. "Russia has been doing it for a long time," he added.

He made the statement when reporters asked whether his socialist government was opposed to cartels, and whether its opposition applied only to privately owned organizations and not government ones. "We are against cartels which make an artificial scarcity," Attlee added.

Disgrace: Harry Bridges' union sent a representative to the school board hearing at which Smith appeared in San Francisco and actually threatened a complete work stoppage of the whole Bay Area if he (Smith) were permitted to speak. This would mean stopping ships bringing our boys home from the battlefield, because Bridges' union controls the workers on these ships. The brazenness of Bridges, who escaped deportation for Communist activity merely because FDR opposed it, is beyond belief. It is perhaps the first instance in American history when a labor union used its coercive power to deny citizens the right of free speech and free assembly.

Eddie Cantor, the heads of the Communist Party, and certain Jewish leaders of Los Angeles organized a mass picket demonstration in front of the America First meeting. It was considered the largest mass picket demonstration ever organized on the West Coast. There were between 10,000 and 20,000 pickets, mostly Jews. There were over 5,000 picket signs attacking Smith and accusing him of everything in the calendar. Conservatively, these signs cost \$2.00 apiece, meaning that over \$10,000 was spent just for signs to protest Smith's appearance.

For that for it shows that there are at least 10,000 people around here who are acquainted with the water developing program and are closely following every step.

Also, it is reported that the city contemplates the purchase of certain riparian lands in the San Pasqual Valley. I am informed that the state code has been modified and it is no longer necessary to settle with riparian owners unless actual damages can be shown. Fortunate for us that certain riparian laws that affect the balance of the state also apply in San Diego.

Was Ezra Pound's "Treason" His Attitude On The Jew?

Noted American Author-Poet Brought From Italy to Washington Jail to Face 'Purge' Trial On New Definition of 'Treason'

WASHINGTON (Special).—Ezra Pound, brilliant American author and poet, was brought here from Italy, to be tried by the New Deal Justice Department on the New Deal's new definition of treason.

For the first time in over 150 years of our republic's life, the eccentric New Deal has invented a new definition of "TREASON". It is (1) that when an American speaks in a foreign country, with which we are at war, he loses the Constitutional guarantee of freedom of speech; (2) that it is illegal for him to say things THERE which would be perfectly LEGAL for him to say here while we are at war; and (3) that, despite supreme court decisions to the contrary, it is possible for a man to "commit treason" by word of mouth. This is all new stuff, but look who's running the New Deal!

NIGGER IN WOODPILE A 'JEW'?

Pound's greatest offense in the eyes of the New Deal seems to have been his "Anti-Semitism." Bolsheviks in both America and Russia have long contended that "Anti-Semitism" is treason and deserves death.

New York's uptown "Pravda" PM, which has some sort of a pipeline to the New Deal Dept. of Justice, published a number of Pound's broadcasts to Americans via Italian short-wave in 1942-43, upon which the New Deal prosecution hopes to convict him of treason. The following are some excerpts:

HE HIT FDR

"Jan. 29, 1942. The United States has been for months and illegally at war through what I consider to be the criminal acts of a President whose mental condition was not, so far as I could see, all that could or should be desired of a man in so responsible a position or office."

"April 16, 1942. The United States to be making war on Italy and on Europe is just plain damn nonsense, and every native-born American of American stock knows that is plain downright damn nonsense. And for this state of things Franklin Roosevelt is more than any other one man responsible."

"May 10, 1942. The next peace will not be based on international lending... England will certainly have nothing to say about it. Neither, I think, will simple-hearted Joe Stalin, not wholly trusted by the KIKERY which is master."

DO THE JEWS RULE US?

"July 22, 1942. I hear that my views are shared by an increasing number of my compatriots... I should hate to to think all America had gone haywire. I should like to feel that the American race in North America had some wish toward survival. ...

"Well, you have been fed on lies, for 20 years you have been fed on lies. And Mr. Squirmy and Mr. Slime are still feeding it to you right over the BBC radio, and EVERY ONE OF THE JEW RADIOS IN SCHENECTADY, NEW YORK AND BOSTON—and Boston was once an American city. ...

"And how much liberty have you got, anyhow... Are you an 'arsenal' for democracy or JUDEOCRACY? Where does public responsibility end and what races can mix in America without ruin of the American stock, the American brain? Who is organized? What say have you in the choice of your rulers? ... And who does own most of your press and your radio? E. P. asking you?"

NOT TREASON—NOT EVEN SEDITION

Not in all of two pages of broadcasts and poems published by the bolshevik sheet from Ezra Pound is there ONE LINE that was disloyal to America or unpatriotic. He simply condemned the infamous New Deal despotism or oligarchy, which was similarly condemned by millions of good Americans.

And the same goes for Best, Kaltenbach, Anderson, etc., whom the New Deal has indicted

for their "free speech" overseas, if all their talks were like the first two, whose broadcasts the writer tuned in on.

Real TREASON is where a man, wanting to see his country defeated, BEARS ARMS or gives aid (that has always meant PHYSICAL assistance with material things) or gives "comfort" (also meaning PHYSICAL comforts, such as blankets or guns, etc.) to the enemies armed forces. Thus it was always decided by the supreme court, and especially in the Civil War. It could not mean "talk" so long as the Bill of Rights remains. Our ancestors thought in the Constitution they had provided in this country to do away with forever the monstrous English definition of "treason", which once included speaking unkindly of the king!

VALLANDINGHAM CASE

It is refreshing to compare the pure administration of Abraham Lincoln with the black regime of Roosevelt. Many fanatics in Lincoln's day wanted to try all Confederates and Northern sympathizers as "traitors". Lincoln refused. There was not one treason trial.

Congressman Clement L. Vallandigham of Ohio was so bitter in his castigation of Lincoln that in 1863 he was arrested and tried by courtmartial. What did they do when they found they had no law to punish him (although he had praised the Southerners to the sky?)

They took him to the Confederate line and shoved him across to the Southern side! Not being well received there, he went to Canada, and was soon back in the States. As the Democratic leader of Ohio, he represented that State in the convention which nominated McClellan to run against Lincoln in 1864. He lived in Ohio until his death in the '70s.

COMPARE WITH POUND

Ezra Pound has been away from America for 30 years. He still has always loved his native land; regretted seeing it sold down the river. Did he have a right to speak up in far-away Italy?

He did not speak in Italian to the Italian people. He spoke in English to his fellow-Americans. He gave the Italians no armed service or aid or physical comfort.

Instead of allowing him to stay in peace in the Italy which our army ruined, they do just the opposite of what the Union North did to Vallandigham. The bloodthirsty New Deal oligarchy BRINGS HIM BACK HERE TO PERSECUTE HIM FOR HIS FREE SPEECH! (His hits at the Jewish money-changers!)

Of course, President Truman is not responsible for the indictment, as it was brought under Roosevelt. But he could imitate Lincoln and say: "Boys, lay off that nonsense. Ezra hit you hard, but he did it fairly and openly, via radio, for the whole world to hear. He was no hypocrite or spy or informer."

Another important thing held against Pound is that he is a "monetary reformer." He wanted an honest money system for America. He thought he detected an "international banker" flavor in the New Deal war pie. Which certainly was his privilege.

WILL ROGGE PROSECUTE?

It was rumored in Washington that Oetje J. Rogge, the noted "Moscow style" trial specialist, who has been idle for about a year, but still on the Justice payroll, will prosecute Ezra Pound. We were unable to obtain confirmation of the rumor.

Pound was brought in rather disheveled, coming from the devastated "poor house" that is Italy. He had \$23 in his pocket; wanted to be his own attorney, but Justice Bolitho Laws refused him the privilege and has under consideration the appointment of an attorney for him.

Justice Laws showed bias against George S. Viereck's attorney in 1943, threw him out of the case, and appointed a court attorney for Mr. Viereck's second trial. Attorney Morosini had in 1942 protested against the misconduct of Justice F. D. Letts, who let Prosecutor Maloney spout prejudice swill to the first Viereck jury, and both Letts and Maloney drew scowls from the U. S. Supreme Court, which upset the verdict.

Mr. Pound was indicted in July, 1943; arraigned here on November 27. Trial will hardly start before January.
